August 31, 2005

To Whom It May Concern:

Computer Support Experts (C.S.E.) has been working with M & P Tool Products Inc. since approximately January 2000.

We have found C.S.E. to be reliable, able to respond to urgent matters promptly and always available when needed.

All of the staff have proven to be courteous, knowledgeable, and able to handle the situations we have requested of them. They are very Customer Service oriented, which is one of their best assets.

Our recommendation would be - If you are looking for a company that cares about it's customers, their concerns and needs, look no further then C.S.E.

Sincerely,
M & P TOOL PRODUCTS INC.

Martha McFarland
System Administrator/Production Assistant
