

Rob and Chris,

I was happy to hear that the overnight conversion was successful this time. The receptionists were raving about the speed of the system this morning and I have not had any complaints yet today (touch wood)!

Thanks to both of you for giving up your night and making all of this happen. I appreciate your efforts very much as I know that you both worked very hard to make it a success.

A special thanks to Dana for helping to coordinate it all and for babysitting the system (and taking all the flak) while I was gone!

Vicki
